## DETAILED ACTION

### *Response to Amendment*

Applicant's amendment filed on 9/13/11 has been entered. Claims 49-52, 54-57, 61, 64-69, 74 and 93-95 have been cancelled. Therefore, claims 56-60, 62, 63, 70-73, 75-92 and 96 remain pending in the current application.

### *Election/Restrictions*

Claim 70 is allowable. The restriction requirement between species, as set forth in the Office action mailed on 4/02/10, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 91 and 96, directed to species non-elected no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Allowable Subject Matter***

Claims 56-60, 62, 63, 70-73, 75-92 and 96 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 58: The closest prior art Johnson (US 2002/0039224) discloses all of the limitations set forth in the previous Office Action, but Johnson either alone or in combination does not further teach or suggest that in the region where respective hydrogen equilibrium pressure-composition isotherms (PTC characteristic curves) of the first layer and the second layer are substantially flat.

Therefore, claim 58 is deemed non-obvious and inventive over the prior arts and is allowed.

As to claims 59 and 60: Since claims 59 and 60 depend either directly or indirectly on the allowed claim 59, thus are also allowed.

Regarding claim 62: The closest prior art Johnson discloses all of the limitations set forth in the previous Office Action, but Johnson either alone or in combination does not further teach or suggest that the second material releases or absorbs the specific element in response to light irradiation. Therefore, claim 62 is deemed non-obvious and inventive over the prior arts and is allowed.

As to claim 63: Since claim 63 depends from the allowed claim 62, thus is also allowed.

Regarding claim 70 (Amended): The closest prior art Johnson (US 2002/0039224) discloses in Figure 4 a display system comprising:

a dimming device (Figs. 3A, 3B; the stack formed between elements 11 and 13) capable of switchably presenting a light reflecting state or a light transmitting state (Paragraph 0039); and

Art Unit: 2871

a display device for performing display by modulating incident light (Paragraph 0001);  
wherein,

the dimming device is a dimming device comprising a dimming layer (element 3) whose light reflectance changes in response to an external stimulation (Paragraphs 0017, 0021 and 0033);

the dimming layer contains a first material whose optical characteristics change in accordance with a concentration of a specific element, the first material being particles (Paragraphs 0016-0017; wherein the dimming layer may be formed of LMgHx or GdMgHx, containing of particles of such elements).

However, Johnson either alone or in combination does not further teach or suggest that a diameter of the particles is equal to or greater than 350nm and equal to or less than a thickness of the dimming layer, since Johnson discloses in Paragraph 0017 that the dimming layer has a thickness of only 200nm. Therefore, claim 70 is deemed non-obvious and inventive over the prior arts and is allowed.

As to claims 71-73, 75-92 and 96: Since claims 71-73, 75-92 and 96 depend either directly or indirectly on the allowed claim 70, thus are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
